

## Powered Equipment Tracking Device Comparison

	<b>AT2</b> 	<b>AT4</b> 
Network connectivity	Satellite	Cellular
Installation	Wired	Plug-and-Play or Wired
Solar powered	Yes	No
Engine runtime monitoring	Yes	Yes
Internal backup battery	Yes	Yes
Operational service life	Up to 8 years	Unlimited
ATEX Zone 0 rated for safe operation in explosive environments	Yes	No
Connected software platform for non-powered assets, powered equipment and vehicle tracking	Yes	Yes
Key software features	Engine diagnostics and maintenance alerts, Asset location & movement reporting, Geofencing, Service verification, Safety inspection task tracking, Asset sharing, Tracker health monitoring	Engine diagnostics and maintenance alerts, Asset location & movement reporting, Geofencing, Service verification, Safety inspection task tracking, Asset sharing, Tracker health monitoring
Built-in accelerometer	No	Yes
Reporting frequency	Near real-time	Every 1 minute in motion; Every 12 hours when idle
Over-the-air configuration and firmware updates	No	Yes
Available installation & training	Yes	Yes
